SUMMARY

Recent IT graduate focusing on frontend development, UI/UX design, and accessible web applications. Experienced in building responsive interfaces using JavaScript, Vue.js, HTML, CSS, and REST API integration. Skilled in creating practical, consistent, and easy-to-use digital experiences, with experience in reusable components, user feedback states, and interactive web applications.

PROJECTS

Gestura – Sign Language Learning Web App

- Developed a responsive Vue.js web app for ASL alphabet learning, combining structured lessons, quizzes, progress tracking, and real-time sign-to-text practice.
- Built reusable UI components including navigation, guest overlays, camera permission states, feedback banners, completion indicators, and responsive lesson screens.
- Integrated MediaPipe hand landmark detection with a backend prediction API to support camera-based ASL fingerspelling recognition.
- Improved reliability and usability through manual testing, camera permission handling, retry states, mobile layout fixes, and clearer user feedback.

Social Networking Web App

- Developed a social media web app with registration, login, profiles, image posts, likes, comments, follow/unfollow, search, and notifications.
- Connected frontend interactions to backend REST API endpoints using JavaScript, Node.js, Express, and MongoDB.
- Implemented dynamic UI updates for user profiles, post feeds, follow states, search results, and notification data.

Minesweeper Web Game

- Developed a fully functional browser-based Minesweeper with interactive gameplay, real-time win/loss detection, and tile-reveal logic.
- Implemented persistent player data using localStorage for user credentials and high scores.
- Managed game state, player credentials, and score persistence without external libraries

SKILLS

- Frontend: HTML, CSS, JavaScript, Vue.js, Vue Router, React basics, TypeScript basics, responsive design
- UI/UX: Figma, wireframing, user flows, accessibility-focused design, UI consistency
- Backend & APIs: Node.js, Express, MongoDB, REST API integration, model API integration
- Tools: Git, GitHub, Postman, Vercel, Railway
- Soft skills: Problem-solving, attention to detail, collaboration, communication

EDUCATION

BSc. Honours in Information Technology

Middlesex University Dubai 2022 - 2026

High School Diploma

Al Amana Private School - 2021
